

NICHOLAS O'DONOGHUE

JUNIOR FULL-STACK WEB DEVELOPER

HERTFORD, HERTFORDSHIRE | +44 7794 668 352 | NICHOLASGODONOGHUE@GMAIL.COM

[NICKOD.XYZ](#) | [LINKEDIN](#) | [GITHUB](#)

Results-driven junior full stack web developer with a proven track record of collaborating effectively in team environments. Completed an intensive 9-week bootcamp at Le Wagon London, showcasing skills in collaborative working, version control systems, and programming logic. Recognized for a strong passion for web development, demonstrated through successful project delivery and a dedication to continuous learning. Track record demonstrating skill in communicating with both senior and junior stakeholders, fostering productive relationships, and driving project success. Proven career history of learning advanced concepts on the job as and when needed and becoming the department lead trainer on these technical subjects.

TECH STACK

Highlighted technologies denote either a higher level of proficiency or what I currently work with daily.

Frontend	Backend	CSS	Libraries, Frameworks	Languages	Databases	CMS
HTML CSS	Node.js Express.js Ruby on Rails	Tailwind CSS Bootstrap	React Next.js	JavaScript Ruby	MongoDB PostgreSQL	WordPress

WEB PROJECTS

Footy Sports News — [Node.js](#) | [Express.js](#) | [Axios](#) | [CORS](#) | [Express-Rate-Limiting](#) | [apiCache](#)

- Spearheaded the development of Footy Sports News, a user-friendly and dynamic full stack web application utilizing cutting-edge technologies.
- Seamlessly integrated essential npm packages and employed advanced security measures to optimize functionality, enhance performance, and protect sensitive information.
- Addressed the frustration of football enthusiasts by delivering comprehensive and real-time league information, squad details, stadium data, and breaking news in a single platform, eliminating the need for manual research. Successfully deployed the application on Heroku for seamless access and real-time data retrieval from [api-football.com](#)

All of You — [HTML](#) | [CSS](#) | [Bootstrap](#) | [Ruby](#) | [Rails](#)

- Collaborated with a team of five developers to create "All of You," an empowering web application that enables individuals to categorize themselves according to their own preferences, addressing the issue of unwanted categorization faced by today's generation.
- Played a significant role in developing the backend of the application using Ruby on Rails, contributing to the design of the database schema, controllers, models, and views.
- Demonstrated versatility in front-end and back-end development, actively participating in designing and implementing the user interface to ensure a seamless and personalized user experience.

Every Bite Counts — [HTML](#) | [CSS](#) | [Bootstrap](#) | [Ruby](#) | [Rails](#)

- Collaborated with a team of four to design a robust database schema for a web application built on Ruby on Rails.
- Contributed to the development of the application's core functionality by creating controllers, models, and views, ensuring a streamlined user experience.
- Showcased adaptability and flexibility by contributing to the implementation of the user interface after completing work on the application's backend.

React Additional Basics (May 2023) React State Management (May 2023) React Hooks (May 2023) React Lifecycle Methods (Apr 2023) Learn React Introduction (Apr 2023) Learn JavaScript (Apr 2023)	Full-Stack Web Development Course (Jan 2023 – Apr 2023)	ITIL v3 Foundation (Mar 2020) Comp TIA A+ Certification – IT Technician	BTEC National Diploma in IT, Computer and Business Studies

CAREER SUMMARY

Lidl GB, Wimbledon, London

(Mar 2017 – Oct 2021)

Achieved ongoing success and progression within Lidl GB, this has included promotion into the 2nd Line Service Desk Senior Analyst position after only 24 months as the 1st Line Administrator and 2nd line Analyst, developing and utilising comprehensive technical understanding and vast business knowledge.

Service Desk Senior Analyst Key Projects

Konica Minolta SafeQ Roll Out Project Lead

- As the technical project lead, I spearheaded a highly complex project to upgrade the print infrastructure for Lidl GB. The project involved over 200 devices spread across multiple sites in the UK.
- My responsibilities included collaborating with various IT departments, such as the Server & Client team and Network & Security team, to ensure seamless coordination and successful implementation. Additionally, I provided training to the service desk staff on the new print infrastructure setup.
- Conducted extensive collaboration with the Server & Client team to create new printer servers, facilitating the smooth integration of the upgraded infrastructure.
- Worked closely with the Network & Security team to establish new network routing for the printers and servers, ensuring optimal performance and security.
- Led the planning and execution of the upgrade across head office and 16 remote sites, implementing firmware updates and configuring the Ysoft printing solution.
- Through my leadership and diligent efforts, the Konica Minolta Printer Infrastructure Upgrade Project was successfully completed. The upgraded infrastructure enhanced efficiency, reliability, and print management capabilities across the organization, benefitting both internal staff and external stakeholders.

Windows 10 Upgrade Project Lead

- I joined the Windows 10 Upgrade Project as the technical lead at an early stage, where the objective was to upgrade all users from Windows 8.1 to Windows 10 OS at Lidl. The project involved over 2,000 devices and users spread across 15 national sites.
- As the project lead, my responsibilities included utilizing SCCM to gather data and details of all machines on the Lidl network. I developed comprehensive plans to ensure a smooth transition for users, including setting up new devices and ensuring the installation and calibration of all necessary software. I also coordinated a team of 13 IT administrators across 16 different sites and actively engaged with users to understand their needs and schedule handover appointments.
- Leveraged SCCM to gather data and details of all machines on the Lidl network, laying the foundation for a successful upgrade process.
- Coordinated and led a team of 13 IT analysts across 16 different sites, effectively managing their activities and ensuring adherence to project objectives and timelines.
- Collaborated with users to understand their specific software requirements and ensured the installation and calibration of all necessary software on their new devices.
- Through meticulous planning, coordination, and leadership, the Windows 10 Upgrade Project was successfully completed. Over 2,000 users across 15 national sites seamlessly transitioned to the Windows 10 OS. The project's success was attributed to the efficient collaboration among the team of IT analysts, effective communication with users, and meticulous attention to detail in setting up new devices and installing necessary software.

ADDITIONAL EXPERIENCE

OrangeTheory Fitness (David Lloyd Leisure), Aldgate, London

(Feb 2015 – Feb 2017)

Senior Sales Associate

- Headhunted for pivotal sales role, developing robust public relations and corporate partnering for business growth.
- Managed marketing events from concept to delivery, driving sales and improving customer satisfaction.
- Exceeded sales targets by 125% and initiated successful learning and development for Sales Consultants.
- Implemented a stringent lead database, improving reporting process and communication with customers.

Fitness First, Tower Hill, London

(Jan 2010 – Feb 2015)

Club Sales Manager

- Promoted into this key management role following ongoing success as a Personal Trainer, driving, and delivering enhanced communication flow, client network and sales growth.
- Developed and implemented sales and attrition targets involving tracking and reporting to area management.

SABBATICAL

Travelling

(Nov 2021 – Nov 2022)

- During a year-long sabbatical, my wife and I embarked on an enriching journey across multiple countries, immersing ourselves in diverse cultures and strengthening bonds with family and friends worldwide. Our travel experiences provided invaluable opportunities for personal growth, adaptability, and global perspective.
